

# Access To Legal Services

Sirti IP/BizNet legal services was developed in partnership with Gonzaga University School of Law and local law firms to address the legal

services needed for the successful formation, protection and long-term success of Sirti's technology-based clients. The first service of its kind in the Northwest, Sirti IP/BizNet is a unique partnership that blends the specialized knowledge of a respected national law school, internationally renowned local law firms and a technology-focused state business accelerator.

## Sirti IP/BizNet

- Legal services are performed for Sirti clients by Gonzaga University law students with supervision and final review of work performed by expert attorneys at local law firms
- Research and acquisition of intellectual property such as patents, trademarks and copyrights
- Development of business contracts and employment agreements
- Low- or no-cost depending upon company revenue and/or investment capital
- Sirti facilitates the program and provides fully equipped office space to law students

**client perspective:** "Sirti understands the financial challenge their clients face to protect core intellectual property. It's an expensive problem that inhibits our ability to capitalize on our innovations and grow businesses locally. Sirti IP/BizNet solves a huge problem and enhances a technology company's opportunity for long-term success."

**Lon Gibby**  
President and CEO, Gibby Media

**partner perspective:** "Our partnership with Sirti is a unique opportunity for Gonzaga University law students to fulfill their public service requirement, gain valuable experience, work with potential employers, and in some instances, earn credit. Students are exposed to experienced IP attorneys and the real world of business and patent law. It's a terrific program."

**Earl Martin J.D., LL.M**  
Dean of Gonzaga University  
School of Law
